

I'd like to welcome you to my little dream shop, R. Taylor.

R. Taylor is a new, stand-alone company, producing a modest number of guitars. We have a relatively small dealer network because we can only make enough guitars to supply a few dozen shops. Every R. Taylor dealer is handpicked because of their knowledge, skill and commitment to selling guitars of this caliber. We're confident in their ability to represent the line to you, the customer, in a way that we can all appreciate.
